Want A Howling Good Time?

K9 Cash Is Ready To Play!

Ready for a howling good
time ... Then it’s best NOT
to let these sleeping dogs
lie ... That’s the concept
behind K9 Cash™ – Video King’s new breed of Electronic QuickShot Bingo™ games.

Playable on Video
King’s Champion II™
tablets and fixed-based
PowerTouch™ units,
this Class II, credit-based
game has a number of
“bone—uses” that will
fetch you more players
and increase revenue —
with no added expense —
to your hall.

In other words,
K9 Cash empowers the
players, with a variety of
game options, letting
them show the world
who’s Top Dog!

Featuring Lil’ Champ™,
Video King’s beloved,
canine cartoon mascot,
this dog-themed concept
revolves around a 1- to
9-card game, played
with 24 pre-called
numbers and a scalable pay
table, that raises and lowers
depending on the
player’s wager.

From the main screen,
K9 Cash allows players to
touch and select the num-
ber of cards – and at
which price they wish to
play for every game. When
a card is inactive, the dog
is sleeping. When a card
is activated, Lil’ Champ
springs to action!

It’s best NOT to let these sleeping dogs lie ... That’s the whole concept
behind K9 Cash, Video King’s latest Quickshot Bingo game. Featuring
Lil’ Champ, our beloved canine mascot, the 1- to 9-card game is played
with 24 pre-called numbers. Touch the screen to select the number of
cards you wish to play, and the sleeping Lil’ Champs spring to action ...

K9 Cash: Five Cards Selected For Play

Red Indicates Winner; Grey, Non-Winner; Blue, 1-Away

Dog Tags Display Main Menu, Help And Other Options

Player Selects 9 Cards, 25-Cent Card Price

Continued From Previous Page...

Like a dog to a bone, the players will be drawn to the game’s ball drop animation. To add more excitement, the cards are actively daubed as the called balls are displayed, mimicking the feel of live play.

To engage the players, encouraging repetitive play, the selected cards are color-coded, letting each player know just how close they came to BINGO. Grey indicates a non-winning card; blue, a one-away or "ON" card; and red, a winner, displaying both the pattern and amount of pay.

Between games, players can select the dog tag earmarked, “Help & Options,” to view the pay table and set the pace. Speeds range from the walk-in-the park, pup-paced, “Nice ‘N Easy,” to “A Little Faster,” “Fast!” and running with the Big Dogs – “Wow! That’s Fast!”

Customizable for military, tribal and charitable organizations, K9 Cash – with comprehensive spend reports – is ideal for stand-alone games or before, during, and after bingo sessions. Ready to reward loyal players ...

Hear those registers go ka-ching ... Then get K9 Cash – just one of Video King’s fun-filled QuickShot themed games!
