CHAMPION II™

Winning Crowds Over!

For Managers

Increase Profitability! Champion II supports Video King's action-packed, credited-based games. Cash in on favorites such as Buy-On-The-Fly, PowerMutual™ Electronic Quickshot Bonanza and other specialty games!

Pump Up Player Spends! Patrons can buy cards at any time. Mid-session purchases can be done on the tablet. No hall staff required!

Eliminate Long Cashier Lines! Players can take any tablet, enter their account number, and gain access to their purchases!

Championed By Callers! No more manual entry of verified cards. B-I-N-G-O claims are sent directly to the PowerPlay™ console. The caller simply verifies the B-I-N-G-O, and the system transmits the results back to every tablet in the hall!

For Players

Superior Design. TouchScreen Technology! To begin play, simply press the large buttons on the screen. Easy-to-use features and navigation system include optional screen layout for left-handed players!

Pick Your Preference! Champion II offers a variety of card and flashboard layouts: 1- & 2-card B-I-N-G-O, for those who prefer bigger, bolder images, to 4-card, 6-card & incredibly sharp 12-card views – which all include a flashboard display!

Automated Daubing! Champion II, like its predecessors Lil' Champ™ and Super Champ™, has a variety of daubing modes, triggered by Wi-Fi communications. Balls are sent directly from the PowerPlay™ console to the tablet, where they are automatically daubed giving players more time to daub paper cards!

We Got Game! Champion II can play every game in the Video King gallery!

Video King,® known worldwide for its superior electronic handsets, has once again raised the bar in unbeatable product performance. In the gaming arena, this durable, yet lightweight gaming device, has no problem muscling out the competition!

The Champion II delivers a one-two punch with vivid colors that pop off its crystal-clear screen. Winning crowds over, its sleek design, with two-way communications, lets players interact by simply touching the visuals on the screen!

A rock-solid performer, Video King's Champion II portable tablet also allows simultaneous play of both Bingo and a multitude of action-packed, credit-based games!
