BowlaNanza™

Bingo & Bowling A Winning Combo!

It has romance, rivalry and, course, Bingo! And it all begins in a bowling alley as Bingo players slip into an all-new realm through their gaming devices in one of Video King's most innovative spins yet in Class II gaming. Video King's newest animated caper, spans the world of Bingo & Bowling, as players rack up points, taking QuickShot to a whole new "lane" in game design.

The 'King Pin' Of Games!

BowlaNanza features a storyline, cast amongst a group of up & coming bowlers, villainous characters, rolling balls and tumbling pins – spliced between free cards and bonus rounds – sure to strike a chord among players. One could say it's a modern-day marriage of today's most popular pastimes, Bingo & Bowling, based on QuickShot, a multi-card game with 24 pre-called numbers.

In this bowler girl meets bowler boy scenario, it begins like any other QuickShot theme. Players select their cards and the denomination they want to play. As the numbers are called, the girl begins to bowl. As she rolls her ball, a giant bowling ball sweeps across, marking the cards at the top of the screen.

The story plays out over 7 chapters. Each time a player earns a bonus round, it is followed by the next chapter. Players can turn off the storyline, while still getting the look and feel of the game!
